From the Publisher ... My apologies to Jerry Starr, who did send an AM Switch last week, after a bout with the flu. The mailman delivered it on Monday, unfortunately, too late to make it into #14.

Frank Wheeler rejoined a few weeks ago, and, without his permission, I'd like to reprint a few items from his letter to Ron Musco. He notes his age (which is old enough to know better and to have started DX'ing in 1931) and continues: "Everything I have is old: radio (an old \$40 Hallicrafters, and old long wire antenna, most lying on the ground, about 75' long, but does pretty good, and a rather old DX'er, hi! ... May all of you have the best year ever in '94. I trust by the time you get this, you will have had a glorious Christmas; we usually do, and probably will." Thanks for the kind thoughts, Frank, and thanks also to all who sent seasons greetings to Topeka.

The NRC Board of Directors and I are formulating a members' survey aimed at gathering information to help us make some decisions concerning the future of *DX News* ... such things as priorities for columns and features, formatting, the dues

structure, etc. Anyone who has suggestions for survey questions should send them directly to Board chairman Ken Chatterton (address on back page).

Welcome to these new members ... Bob Kozlarek, Elmwood Park, NJ; Ken Kaiser, Elizabeth, NJ; Sherman C. Seither, Kawkawlin, MI; Rich Bosse, Windsor, CT; Boyd Stepler, St. Cloud, FL; Patrick W. Rodgers, Westport, CT; LaMona K. Jurgens, Glenwood, IA; Randall Trapp, Dodge Center, MN. Our membership list now stands at 722 strong.

DX Time Machine

From the pages of DX News:

50 years ago ... from the Jan. 8, 1944 DXN: Excitement was building for the DX program from KINY-1460 scheduled for January 15. President Joe Becker offered a prize of \$1.00 in War Stamps to the most distant reporter (or a half-hour NRC membership for a non-member); and for 10¢ in stamps, KINY was going to send a sample of gold-bearing quartz rock from the world-famous Alaska-Juneau gold mine.

25 years ago ... from the Jan. 18, 1969 DXN: The publishers promised to continue experimenting with various techniques for the production of DXN with the new offset process ... Andrew Rugg, Pointe Claire, PQ, reported receiving a nice Season's Greeting card from YNKW-885 but no verie except from YVNA-660 ... Frank Waldron, Matawan, NJ added a new state with KTUF-1580 and a new country with RJR ... César Objio provided a list of stations audible from the Dominican Republic.

10 years ago ... from the January 16, 1984 DXN: Tony Fitzherbert's "Formats" column made its first appearance, including contributions from Dave Schmidt, Steve Francis, Walt Rogers, Greg Ledbetter, Bob Blau, and John Herman ... the beverage/longwire and loop antenna books made their first appearance for sale.

APPLICATION FOR NEW STATION

1560 WI Altoona: 2500/1000 (1700 CH) U2 (this appears to be the same application that was tendered, then quickly withdrawn in mid-1993 with the exception that the previous application was for U1)

APPLICATIONS FROM EXISTING FACILITIES

920 WMMN WV Fairmont: reduce night power to 200 watts and change antenna to U1 (this also solves a mystery in Issue 11. This change was first listed for WMMN, a typo generated at the FCC which they actually found and corrected on their own!)

1110 WGNZ OH Fairborn: day power to 2500, CH power to 2000

1370 KFIR OR Sweet Home: modify application for move to 720 kHz to decrease night power to 184 watts

1460 KEND NV Las Vegas: modify power increase CP to change day power to 20000 watts

1510 WOLF NY Syracuse: modify CP for move to this frequency to reduce day power to 750 watts and add 820 watts at night, antenna to U1 (still on 1490 kHz)

GRANTS TO EXISTING FACILITIES

None

OTHERNESS

860 WRFB FL Cocoa: silent station is ON THE AIR

1130 KHTH CO Dillon: silent station is ON THE AIR and now relays KNUS-710 Denver

1240 KNCI ID McCall: in response to the report in Issue 12 the owners of this station say it is NOT on the air, in fact the tower is no longer up, however they hope to possibly reactivate the AM in 1994

1260 KBRH LA Baton Rouge: silent station is ON THE AIR

1370 CFVD PQ Degelis: has approval to move to FM and delete this AM facility, no timetable announced

1480 WAJA NC Franklin: CP for 5000/13 U1 is on

980 KCAB AR Dardanelle: silent station is ON THE AIR

1110 WHIM RI East Providence: CP for 5000/250 U3 is on

1400 WELL MI Battle Creek: station is SILENT

1440 WSEL MS Pontotoc: station is SILENT

1500 KMXO TX Merkel: this silent station, thought to have had its license cancelled and call deleted, is

again ON THE AIR!!! Although the FCC removed the license of KMXO from their database and other services such as MSJ have deleted this station from all their lists, it has returned, evidently from the dead. According to the manager the FCC reinstated the cancelled license and the station returned to the air 8-1-93. So add KMXO back into your Log. They are 250 D3 and the address is 604 North Second, Merkel, TX 79536. Format is SS REL. This one came from far out in left field!

1550 KRGQ UT West Valley City: this is now the city of license, ex-Granger

1560 WSEZ IN Paoli: despite the fact the FCC continues to show this station as 250 D1, they have been operating fulltime and according to GM Todd Edwards they are licensed for 250/13 U1 with a 62 watt PSSA and PSRA. A check of other FCC info sources shows that nobody else seems to know about this either.

AM SWITCH INFORMATION MAY BE SUBMITTED VIA PACKET RADIO

Recently Wayne Heinen, N0POH, has added a packet TNC to his ham radio shack and has been using this mode to submit items for AM Switch. Any other licensed NRC hams with 2 meter packet radio capabilities are more than welcome to submit AMS items via this method. Wayne's information from Colorado has reached here in a matter of hours at best and always within a day via Packet. The Packet address for submitting AMS items is:

NSIRL @ WB8LVP.OH.USA.NA

If city, state and zip is requested by your local packet node use: Youngstown, OH 44514

THANKS: Wayne Heinen, Craig Healy, Brian Vernon, Ed Krejny, MSJ, Shawn Axelrod

MEDIUM WAVE RAMBLINGS

- Our thanks to Keith Short of "the other side" (DDXD-Eastland) for doing some book work and helping out with an unID.
- As you will see, this week's interlude with DX from the West is small potatoes compared with last issue's 10-pager. About two years ago, we had an 18-pager that probably will stand as the record-holder for quite awhile. Unless, that is, we start hearing from more "silent members". Hint, hint.
- My apologies to Jim Boehm of San Antonio, for omitting his credit (JB-TX) after the very first item in Special in Issue 13. Sorry, Jim!
- We're back on a weekly schedule until March. So no need for a deadline schedule, except to say... be sure your reports get here by Saturday's mail, or around noon if delivered electronically. The Prodigy address is MTFH12a or, by other service connected to Internet, MTFH12a@Prodigy.com.

SPECIAL

- 550 KSD MO St. Louis - Now carries KSDK-5's 6:00 PM *Newschannel 5*. (EB-MO)
- 900 KQCV OK Oklahoma City - strong days now with power increase, using *Central Oklahoma's Quality Christian Voice* slogan and USA Radio Network news. (BW-OK)
- 1250 KWSU WA Pullman - Per verba, now operates U1 5000 2500, and hours are LSR or 0900 (whichever is earlier) to 0300. (EB-MO)
- 1570 KMYZ OK Pryor - Very weak here days, not heard nites. Suspect they are using the 14 watts nite power. Calls to station concerning the weak signal resulted in "we're working on it" responses. Still || 104.5 FM *Z-104* with AOR format. (BW-OK)

UNIDs and UNID

- 1330 UNID ?? - 12/15 and other nites in FF, looped NW-SW. Two local DXers claim to have IDed this as CKLD, which is logical, except they are directional to the northeast [highly directional, I might add - Ed]. Does KBLS do any FF? This unID seems to be heard only in the 2000-2100 time frame, with talk, then drops out. Strange. (JW-CO)
- 1350 KSLQ MO Washington - Is most likely *Shane Worley's* unID in Issue 12. I checked the *Television Facebook*, and there are two Fox affiliates on Channel 30. One is WAWS-TV in Jacksonville, Florida, while the other is KDNL-TV in St. Louis. One 1350 in the Jacksonville TV market is WGIA, Blackshear, GA, the other is KSLQ. My guess is KSLQ. (KS-OH)
- 1570 WFEL MD Towson - This is *Charles Reh's* unID in DDXD-E in Issue 12. They have recently been purchased by same group who owns WKDL-1050 and WKDV-1460, and now simulcasts the combo. (EB-MO)

- 1150 CKX MB Brandon - 12/6 0300-0330 - Very weak in KIIS null. CIDs at 0302 and 0330 noted. Possible TT might have been TVI. MB #2. (MS-CA)

- WGGC NC Belmont - 12/20 0000-0030 - Not heard. (MS-CA) 0000-0030 - Nothing heard. (FA-ID)
- 1370 KWNC WA Quincy - 12/20 0300-0330 - CIDs noted at 0307 and 0325 through powerhouse KXTL. The absence of 1370 in San Jose was a great help. (MS-CA)
- KWNC WA Quincy - 12/20 0300-0330 - Heard strong CIDs at first, but then got weaker. Did they change power or antenna direction? (FA-ID)
- 1440 KVON CA Napa - 12/27 0300-0330 - Strong at first with KEST-1450 slop, and KMED. About 0315 faded out except 2 kHz TT barely audible. (BK-CA)
- KVON CA Napa - 12/27 0300-0330 - Noted this repeat test with VIDs and song *Cathy's Clown* at 0312. (MS-CA)
- KVON CA Napa - 12/27 0300-0330 - Strong signal with announcement of test and several TTs heard. Same as last test. (FA-ID)
- KVON CA Napa - 12/27 0321 - Tentative, noted briefly with very poor signal with TTs or CIDs, under KITA/WROK/WHYY with WRTH-1430 and KIRL-1460 splash. (EB-MO)
- KVON? CA Napa - 12/27 0303-0309 - Unneeded KVON may have been the continuous TT heard under KODL, but no ID. (GS-BC)
- WAJR WV Morgantown - 12/6 0000-0400 - Not heard. (MS-CA)
- 1480 WDAS PA Philadelphia - 12/20 0110 - Really had to dig out the 1 kHz tone and CID, thanks to the wonder of instant replay. (RS-MO)

A solid S-5 on the lw. Channelview is a close suburb of downtown Houston. League City is about 20 miles SE toward Galveston Bay, and my old homestead Dickinson... great donut shop! (RS-MO)

DDXD-E NEWS AND VIEWS

A brief DX test report: Alan Merriman says he is 6 for 6 on veries, all from DX tests. Steve Francis says this is already his best season for DX tests in 18 years. And John Hanz is still waiting for responses from WAGL and WSSH.

If you're interested, you can send reports to me via Prodigy (DPHT10A) or Compuserve (73520,657). Another alternative is to send your report via disk - I use WordPerfect 6.0. If these conditions keep up, anything that can save me some time will be greatly appreciated.

International DX Digest

Foreign DX Catches. Times are UTC; for ELT, subtract 5 hrs.

Lots of e-mail coming in! Wolfish, Higgins, and Jeziorski have now been heard from. Niel wonders if he can try for the Atlantic Beacon on 1570 now that CFOR has signed off. Nope, they're gone; only 530 and 1020 remain. But I heard a bunch of new low-power domestics on 1570 this morning. Maybe 1570 will become the sunset goldmine that 1580 once was?

Welcome to Ken McHarg (from Louisville Seminary, no less!).

Thanks for all holiday greetings via USPS and e-mail. You all have my best wishes for the coming year.

JIM

LATVIA: Latvian Radio 1350 full data card, v/s Janis Lukss along with Xmas card and a list of outlets with an "X" on the Kuldiga site (not on cochannel Cesvaine). This in 55 days for report w/cassette tape and \$1. (Heard during Newfoundland DXpedition III) [Burnell-NF]

UNIDS

Mike Hardester's unID on 1650-1675 kHz (DXN 61-9) is Radio Rebelde. The tape he sent to me has a Rebelde ID and the Cuban national anthem. No harmonics (or sub-harmonics) make sense, and horrible audio, so probably a spur. [Renfrew-NY]

NRC Ham List

A listing of radio amateurs interested in exchanging information on BCB DXing

Updated By: Frederick Vobbe KB8BMQ 12/12/93
P.O. Box 5031 ** Lima, Ohio 45802-5031

It's time again for another National Radio Club and DX Audio Service list of those in the club that are amateur radio operators. If you are not in the list, send me your information. Bands worked is limited to thirty characters ONLY! Remember, I'm not a mind reader, so I only include those that are club members, and that have sent me their information. Submit information only in the format below. Sent corrections and additions to the address above. The next Ham List will appear in the spring, hopefully with a lot more additions to the list. As soon as I get packet, you will be able to message me there, but till then the only other path is via BBS @ WLIO TBBS (FidoNet 1:234/16) in Lima, (419) 228-8227.

Don't forget that the National Radio Club Net, an informal gathering of club members, is heard on 80 meters, 3840 SSB, around 9PM Eastern Time. Here

in Lima I can hear K8GYU, K4GLU, and N8IRL with S8+ signals, in some QTH's the signal might be different, batteries not included, not available in Canada. <grin> Speaking of which, I better upgrade myself so I can join in on the fun. Their in the Advanced portion of 80 meters.

Keep in mind that 160 meters is a good indication of skip in the AM band. Because it is not crowded, you can usually find someone on the air, and from their QTH gauge where the top end of the AM band might be leaning towards.

And now ladies and gentlemen... the NRC Hams List! 73 DE KB8BMQ.

HUGH MONTGOMERY - 2797 KINNETT ROAD - BETHEL, OH 45106

----- Greetings one & all! I have been DXing since the early 70's while growing up in Europe. In those days, it was primarily SW (AFRTS) & AFN on the AM band. I also collected SW veries. What a difference compared to RCB veries requests! I became disillusioned with the hobby after getting a 10% return rate, but attending the NRC & Monitoring Times convention made the adrenaline flow again. That rush is subsiding as I sent out 70 reports and have less than a 50% return rate. I guess the TESTS are really the best way to get veries! Right now I am trying to verify every state and every frequency, missing 12 states and 38 frequencies. I have heard 40 states but got no answer from AL or MS. So it becomes more grating when you catch something you really need and don't get a response. WJAC-1510 dominates here, but they have failed to respond to repeated attempts, same with WTAR-790. Oh well! I am lucky that I started collecting veries in the early 80's when you didn't even need a stamp to get a verie. And they were veries, not letters. It's interesting, I collect baseball autographs through the mail, and the parallel is uncanny. In the early 80's, Hall of Framers would send you stuff, write letters and answer everything, SASE or not. Now, you might as well save your stamps and be prepared to spend big bucks at card shows (\$250 for a baseball signed by Joe DiMaggio, I have a letter signed by him in 79). Was quite excited to pick up a verie from the KREW TEST, I have verified WA but not AL, how about that? 73

MIKE BROOKER - 99 WYCHCREST AVENUE - TORONTO, ON M6G 3X8

----- MARK CONNELLY's DX notes from his vacation in S Lee, MA were of special interest to me, as I have been doing much "Berkshire DX" on my vacations at the Kripalu Center for Yoga & Health in nearby Lenox. Many of the CPC TESTS that have been scheduled thus far, I don't need because I already logged the station back in the Carter administration, or they are on frequencies that are impossible here due to local NSP pests. Cases in point: WJSM-1110 (heard at sunset 77), WAGL-1560 (sunset, 78), WSSR-1510 (heard many times since the late 70's with previous calls WMEK, WITS, etc.). WXYT-1270 (frequent pest here at night), WCHI-1460 (impossible because of CJCF-1430 stop and/or mixing spur), WOC-1420 (ditto but heard in 79 when then CKFH was off), & CKX-1150 (CKOC is virtually un-nullable, but I heard CKX in 80 during a rare CKOC SP). WDFB-1170 was tried for but not heard. HJNW (Radio Noticias Caracol) was heard in WWVA's null while trying for the WDFB TEST, so it wasn't a total loss. Last Monday AM (12/20), I added 2 new stations via CPC TESTS: WNAS-1480 & WCGO-1270. I can't remember the last time I heard 2 new CPC TESTS in 1 night. After a long wait, I finally received my 600th MW verie from WCCW-1310. I had been stuck at 599 for months. I am still waiting for a verie from WVHI-1330 for the TEST last April, I thought they would be my 600th verie. Has anyone received a verie from WVHI yet? One DX highlight for 93 was on SW, hearing the countries Croatia & Slovakia. 73 & Jays' "3-peat" in 94!

ROBERT RUSH - P O BOX 10489 - ROYAL, MA 01041-2089

----- Winter has arrived with sub-zero temperatures & snow squalls in S New England. The Drake R8 & Quantum Loop antenna has been used at this location with some great results, 850 brought the following stations: WYLF & WRMR with WHDR no where to be found! Plans are to review my logbook to get an official total of my AM loggings. It is amazing what a few years of deregulation have done to the AM band! Anyway, I hope 1994 brings everyone lots of new national and international logs! 73

ERNEST COOPER - 5 ANTHONY STREET - PROVINCETOWN, MA 02657

----- Well, I've made my verie goal! Total is now at 4444 with the receipt of these 3 veries: WSMI-1200, WNSW-1200 & a real prize in KPDS81 in CT. This is a 10 watt TIS dealing with car pooling & traffic and is located in Windsor, Thanks for the help RON MUSCO! This is my 2nd "PIZZA" verified. MM 12/16 Unneeded CRE-1550 noted with sign off & Oh Canada at 1:08AM. AT 1:11AM on 1460, someone said "The story of Rumpelstiltskin will continue on Radio Oz", WKDZ-VA? (Yep-DWS). But WHY would a children's program air at 1:11AM? I think I'll send them a tentative. That sunset, WHYL-960 completely dominating the frequency. At 4:19, CFRB was about even with WJNS on 1010, both unneeded of course. WMMW-1260 was pushing through WPEZ at 4:48PM. Then, at last, enough for a report to WNSW-1200, in/out with WROX & WSMI, the verie is back already! The DX TEST from unneeded WNAS-1480 made it here with the code ID's only, this was the 1st time I've heard them since moving here from Brooklyn 19 years ago! 12/22, acting on a phone tip from STAN MORSS, I went looking for WYVJ-1160 whom he said barrels in up there at sunset. I tried, but did not hear them, only WOBM/VSB2/WJUD. That PM,

WXXH-750 almost like a local as early as 3:55PM, but an earlier report is out to them. My mystery 1210er interfering with WOGI turns out to be WKNX. 12/26 still trying to work 1200, I heard someone with a non-ID of 'All Sports Radio' at 1:25 AM. Sunset, unneeded CBNA dominating 600 at 4:01PM, still with Christmas music. I was looking for CIQC. 12/27 I noted steady tone, very weak, on 1630. And a surprise in WQNX-1590 atop with an ID at 1:01AM, but they're unneeded here. They're in Spanish. Who played 'Silent Night' at 1AM on 12/25 on 1450? (It was a Silent Night marathon on WRJM, didn't you know?-DWS). I'll end with this (not written by you-know-who): Let's all take advice quite profound, No matter how tightly our loopstick is wound, Or what ever type aerial, when it comes to your burial, We'll all wind up in the ground! (E. Waddicwalk Stoutfellow). Forward-March

DAVE SCHMIDT - P O BOX 11502 - WILMINGTON, DE 19850

----- Thanks to all who called during the WMIZ-1270 test on 1/2, looks like we started out the New Year well for some. Again, it was amazing to note that most of the calls came from the null areas, with the most distant from TOM BRYANT in Nashville & J D STEPHENS in Huntsville. You might think a club with over 700 members would have a few more contributors than this after a week? This is it through 1/4/94. CUN7! *[Signature]*
